

Better Connected

Driving smart connectivity between advisers, accountants and investors

Deliver a better client experience with smarter, simpler connectivity between SMSF advisers, accountants and investors.

Adviser insights dashboard

Up-to-date investment insights are at your fingertips through our Adviser insights dashboard. It's never been easier to stay on top of your clients' SMSF and other investment portfolios and provide great advice to your clients.

Secure data, updated daily

The lifeblood of efficient and accurate reporting, Class offers more than 200 direct-connect data feeds for banks, brokers and wraps. Updated daily and delivered via a secure and encrypted link, so data cannot be intercepted, lost or diverted.

Advice tool integrations

Class offers seamless two-way integrations with popular advice tools Midwinter and XPLAN – removing the need for manual data entry, streamlining reporting and saving you time.

Need SMSF administration help?

If you're not already working with an SMSF accountant, speak to one of our experienced administration partners.
