

Why Kaplan Professional?

EDUCATION STANDARDS

Depending on your previous studies or professional experience, you can commence a Graduate Certificate in Financial Planning or FPEC-approved Graduate Diploma of Financial Planning*. You then have the option to upgrade your qualification to our Master of Financial Planning, which is on the FASEA-approved register.

1

Practical and relevant learning

Our courses are curated and delivered by industry experts to ensure you'll be provided with performance-focused outcomes directly applicable to your professional practice.

2

Six annual intakes

Complete flexibility to study all year round, with the ability to accelerate your study or 'take a break' to accommodate professional and personal commitments.

3

Onboarding process

We'll work with you to map out your prior learning and experience, to create a personalised study pathway to ensure you achieve your goals within your desired timeframe.

4

100% online

Access all your learning content, supporting materials and assessment information through our intuitive and user-friendly online learning hub, anytime and anywhere.

5

Personalised support

Our experienced and knowledgeable Student Advice team are specifically in place to support students studying at a postgraduate level and are always a phone call or email away.

6

Face-to-face support

Our face-to-face lectures and intensive workshops provide the opportunity for additional support in a class environment and are also available live online or on-demand.

*Once the FASEA curriculum is confirmed, Kaplan Professional will ensure the required elements are incorporated into our postgraduate qualifications and gain FASEA approval.

Supporting *you* through every aspect of the new professional standards.

FINANCIAL ADVISER EXAM

Prepare for the future and the FASEA exam with our diagnostic assessment, KUDOS. It allows you to practice sitting under exam conditions; gain an in-depth understanding of your financial advice knowledge levels benchmarked against the industry; remediate knowledge gaps with just-in-time learning; and understand where you should focus your ongoing professional development.

PROFESSIONAL YEAR

ELEVEN imparts supervisors under the new professional year requirements with the skills and knowledge required to mentor, coach and inspire others, including new industry entrants. By gaining deeper insight into your true self, ELEVEN can provide meaningful and sustainable personal and professional development to help you unleash your full potential and become an extraordinary leader.

CODE OF ETHICS

We're utilising the latest technology to build tools to help identify compliance risk. Using artificial intelligence, Artemis is a purpose-built software solution for the Australian financial services industry. It automatically identifies and analyses content for compliance risk against ASIC's Regulatory Guides, streamlines the compliance approval process, and delivers real-time tailored learning interventions to address knowledge gaps as they arise.

CPD

We're passionate about lifelong learning and the development of well-rounded professionals. As the established industry leader in CPD and provider of the Ontrack platform, we deliver purpose-built solutions to help address all your CPD needs under the proposed CPD guidance. Speak to us about creating your own CPD policy, creating and monitoring training plans, CPD content, and reporting against designated categories.
